REPORT OF THE BOARD OF DIRECTORS.

OCTOBER 6th, 1873.

To his Excellency, John J. Jacob, Governor :

The Board of Directors of West Virginia Hospital for the Insane, have the honor to submit for your information the tenth annual report of the institution, embracing the substance of two semi-annual reports for the period between September 30th, 1872, and October 1st, 1873.

PROVISION FOR THE INSANE NOW IN JAILS.

At the meeting of the Board of Directors in May last the subject which presented itself to their attention as of most pressing importance was the provision for the unfortunate insane confined in the various jails of the State. As the speediest means of affording relief the Board adopted the plan of building a house to be temporarily used for the accommodation of the incarcerated insane, and so constructed that it could be subsequently converted into an engine house, when the hospital building should be sufficiently advanced to receive all the patients. This mode of providing for the sufferers suggested itself, not only as the most humane, because it would afford the speediest relief, but as the most economical, because they can be maintained at much less cost to the State in the hospital than in the jails. The present engine house ought to be replaced by a new one in a different location, and no more expeditious provision could be made for the patients now languishing in the jails. A change of location is necessary to avoid the smoke which the prevailing winds blow from the present engine house into the doors and windows and against the walls of the asylum, annoying the inmates and defacing the building. Accordingly a two-story house, 50×50 feet, with basement, to be substantially built of brick, was let to contract for the sum of \$10,218 20, and to be finished ready for use by the 15th day of October, 1873. A failure to finish the house in time was the consequence of a suit before the Court of Appeals. The necessary funds were not procured pending that suit.

REPAIRS TO THE HOSPITAL.

Certain leakages and decayed parts, from which the building was sustaining further damage, have been repaired, and some necessary painting has been done and paid out of the fund for current expenses. (See Superintendent's report herewith.)

THE FINANCES FOR THE CURRENT YEAR.

For details of the expenditure for construction, and for the current expenses for the year ending the 30th of September, 1873, and for the names of the officers and employees of the hospital, reference is made to the accompanying reports of the Medical Superintendent and Treasurer.

CONSTRUCTION OF HOSPITAL BUILDING.

The Board of Directors who met in 1872, finding an appropriation of \$25,000, only, for further construction, a sum inadequate to build an additional section, and deeming a better supply of water, than was possessed by the Hospital, a most important desideratum, they applied a part of that appropriation to the construction of a reservoir, and for some other necessary purposes. The balance they very properly expended, as far as it would go, in procuring materials for building. These materials, such as stone, lumber, lime, &c., we found ready for use.

BUILDING THE HOUSE IN SECTIONS.

It is a well established fact that building the house by sections renders it liable to crack and weakens the structure; yet the policy heretofore pursued by the Legislature of making small appropriations, has admitted of no other course. The Directors have been left the choice of suspending the work from year to year until the appropriations should accumulate a sufficient amount of money to start and finish the whole building, and, during the suspension, leave numbers of the insane suffering in the jails at great expense to the State, or to pursue the course of building piecemeal.

When we reflect upon the inhumanity of keeping so large a number of patients in the jails, and consider the greater expense which the State incurs by this policy, we feel impelled to recommend more liberal appropriations, which would not only accord better

with the noble ends for which the institution was founded, but would prove more economical. The present Legislature at its session last winter, appropriated eighty thousand dollars for construction. This sum, aided by what remains of the previous appropriation in the form of stone, lumber, &c., and after deducting the amount required for the new engine house, will fall short of the amount necessary to complete a section about \$25,000, and therefore confines further construction just now within that limit. It is to be hoped that when the Legislature resumes its labors at the adjourned session, soon to meet, it will take this subject into serious consideration and adopt the enlightened, economical, and humane policy of pushing the hospital building to an early completion.

THE ASYLUM AS AN EDIFICE.

It is to be attributed to the good fortune of West Virginia that when a Hospital for this section of Old Virginia was projected, the world entertained a sense of duty to the insane, which had advanced beyond the mere objects of utility and security itself, to that higher and nobler sentiment, humanity to the poor unfortunates. Those who engaged in the work of planning this Hospital were humane men, fully imbued with the genius of progress. Prompted by the best feelings of our nature, they availed themselves of the highest architectural and scientific assistance. Then taking advantage of all the experience which society possessed upon the subject they furnished a model which, for all the purposes of such an institution, challenges the admiration and elicits the praises of all who see it.

With no pretension to show on its exterior by aiming at an exhibition of ornate architecture, it presents a combination of elegant simplicity with well preserved proportion, giving it a character of graceful symmetry. In its interior it is arranged with a view to separate the patients, and at the same time to group them into classes, and permit the association of those who preserve their social character. The rooms of such patients are connected with spacious halls constructed so as to admit of ventilation, exercise and amusement. In these halls the means of amusement are provided, and they are open to all whose condition admits of the indulgence. Here, under the supervision of their attendants, they exercise and amuse themselves, and when the weather forbids *out-of-door* exercise, they are furnished a most valuable resource

against the effects of idleness and confinement. Those whose condition requires solitary confinement are provided with rooms constructed with as much regard to health and comfort as is consistent with their own and others' safety.

SHOULD ANY OF THE UNCURED BE MOVED ?

The question has been started by suggestions in the newspapers and by motions in the Legislature, to remove to the counties from whence they came, patients of a particular class. Whether they should be returned to their friends, or to the county authorities, to be cared for in jails or in poor-houses, is not stated. Return them from whence they came, however, and one of these must be their destination.

When the superficial observer views the various forms of insanity as it is exemplified in a well-conducted Hospital, he sees many patients who, at the moment of his observation, seem gentle and harmless, and whose residence anywhere would seem not to be incompatible with the peace and quiet of those about them ; and this, indeed, their medical attendants will inform him, is their general condition whilst in the Hospital. Such an observer, overlooking the fact that this gentleness and harmlessness is the result of the treatment they have received at the Hospital, supposes they would preserve the same character everywhere. Remove them, however, from that discipline to which they are subjected at the Asylum, and they undergo the most unfavorable transformation. Nothing will hold them submissive to order and rule but the most constant exercise of authority. No relaxation of discipline, no deviation from established rules, is to be permitted. While kindness and gentleness are essential requisites in influencing them to submit to the regulations, strict discipline must be unremittingly maintained amongst all those who are allowed the liberty of social intercourse. The humane and intelligent managers in an asylum can furnish these conditions and pursue this course undeviatingly. At home the required conditions are never found for lack of power on the part of near relatives to suppress their emotions. Those rigid rules which are necessary to maintain authority and preserve discipline give way under sympathy. The affection of friends for the poor unfortunates leads to an indulgence which soon releases from all restraint, and encourages to the exhibition of those eccentric, and, generally, aggressive movements that excite perpetual apprehension

and destroy all peace. But were it possible to keep these patients at home, home would frequently be the most improper place for them. Insanity often has an hereditary origin. In all such cases the patients have probably left relatives at home in whom an exciting cause only is wanting to develop the latent tendency and bring on the disease; and nothing could operate a more certain exciting cause than the presence of a relative afflicted with this dire malady. The adoption of the policy of sending them back to the counties might thus create more patients, and, as many of those sent back would, on account of the renewal of violent symptoms, require to be returned to the Hospital, the evil would rather be increased than diminished by the remedy.

These views suggest that the insane should be provided for at a place where all the conditions necessary for their safety and comfort, and for the safety and peace of society, can be best attained and preserved; where the curable are placed in the most favorable circumstances for treatment, and where whatever science has discovered for their cure will be best applied. Such a place is a well conducted Asylum. If a cure be possible, there the best chance of attaining it will be found; while the hopelessly afflicted are there provided for, as they can nowhere else be provided for, in that manner which accords best with humanity, by giving the greatest amelioration to their condition, and at the same time affording the greatest attainable security for themselves and for society. There is something revolting to humanity in the suggestion to turn these unfortunates out upon the world—send them back to the counties whence they came; and what is it but to turn them out upon the world? The counties have no suitable place, nor are they likely to have a suitable place, for the insane. Some of the insane, it is true, have friends, who would find provision for them in some other State; but the great majority would be left to that negligent public charity which pities, despises, and starves, all such objects. These reasons, and others not necessary to mention, induce the Board of Directors unanimously to recommend that the Legislature proceed, as fast as possible, to finish the Asylum building, and make provision there for all the insane of our State.

MANAGEMENT OF THE ASYLUM.

After a thorough examination of the Asylum in all its parts, and in every department of its management, the Board are satisfied that its government has been well administered, that the Superintendent

and his assistants have given to its affairs that attention, and applied that skill, which the multifarious duties of the establishment demand. The Board are aware of the embarrassment which the crowded condition of the Hospital imposes upon the managers, and of the constant vigilance which this state of things requires, beyond that which would be required, did the house contain no more than its proper number of patients. To preserve order, and observe the sanitary rules, labor has to supply the place of room.

THE SALARY OF THE SUPERINTENDENT.

The Board have not thought proper to reduce the salary of the Superintendent. The salary allowed is the same as that paid his predecessor for eight or nine years. Why should it be reduced now? The laboriousness and responsibility of the superintendency have increased and are increasing. The position requires of him who fills it qualifications of no common character. Besides the qualities of intelligence and honesty, intellect and virtue, firmness and industry, he should possess a liberal education. The law requires him to be a physician, and, as such, he ought to understand his profession well; and he should possess a rare tact in controlling persons. In particular branches of the science he should be highly skilled. Can the services of such a person be secured for trifling pay? The genius of our government, and the pecuniary condition of our people, we know, forbid extravagance and demand economy in the administration of every department. Public functionaries are required to perform their duties for a moderate compensation; but it will be admitted that here, as everywhere else, the pay should bear some proportion to the service performed, the responsibility incurred, and the scarcity of the qualifications required. Two thousand dollars was not deemed too much pay when the duties of the position were perhaps little over half as onerous as they are at present. If the salary were not an excessively extravagant one then, it may be difficult to find a reason for reducing it now.

ROCK QUARRY.

The quarry which had been used the previous year was abandoned last spring on account of its distance from the Hospital, and the old one on the Hospital ground re-opened. By this course it is estimated that several thousand dollars have been saved in the cost of hauling.

The work is now far enough advanced to enable us to estimate, with an approximation to accuracy, the whole cost of the section when finished. These estimates, made by those who ought to be best acquainted with the subject, show that the section now going up will be built from \$30,000 to \$40,000 less than either of the finished similar sections: the whole estimated cost of the new section, when finished, being \$87,200, against about \$135,000 for each of the old sections.

APPROPRIATION TO FINISH SECTION, &C.

It will be seen by reference to statement, marked A, that about \$25,000 will be needed to finish the new section. With this amount the section can be got ready for patients by August next. At that time the capacity of the Hospital will have been increased one hundred and sixty patients; that is, sixty by the new engine house, and one hundred by the section. The former will probably be ready for occupation by the first of December next.

PURCHASE OF LAND, &C., OF CALEB BOGGESS, ESQ.

This property consists of about five acres of land situated in front of the left wing of the Hospital, at a distance of about ninety feet. There are upon it a most valuable spring of water, and several small buildings. Its possession by the Hospital has been considered, all along, an absolute necessity. Mr. Boggess was offered \$4,000 for it in 1866, and was about to sell, but, being requested by the then Superintendent and some of the Directors to hold it for the Hospital, he refused to consummate the contract. Had he then sold it, or were he now to sell it, to outside parties, it would be divided into lots for the purpose of having erected upon them residences, probably manufactories. Once in that condition, the property would either be beyond the reach of the institution, or, as the least evil, it could only be obtained at the cost of all the improvements, added to the original price of the land.

The price asked by Mr. Boggess, and at which it was conditionally contracted for by the Board, is \$3,500. By the terms of the contract, if the Legislature appropriate that sum, (\$3,500,) for the purchase within thirty days from the date of contract, (October 3, 1873,) the bargain will be ratified, and the purchase consummated; otherwise Mr. Boggess has the power to declare the contract null.

The history of this matter discloses facts which show that Mr. Boggess deserves the thanks of the friends of the Hospital for retaining in his hands, at some sacrifice to his interests, this land for the refusal of the authorities. But it was announced to the Board, at the late meeting, that the time had come when the Hospital must purchase it, or the property would pass into other hands.

DISCREPANCY IN THE OFFICIAL AND FISCAL YEAR.

By the present arrangement, as well as by that heretofore adopted, the fiscal year begins on the first of October, and terminates with the next thirtieth September; whilst the official year of the Directors begins on the first of April, and terminates with the following thirty-first of March. It has been the custom for the Board to meet about the first of April, and again about the first of October, to transact their business. At the meeting in the spring they see the condition of things in the Hospital, and judge of the requirements for the next six months, and take measures to meet them. In the fall they see how their orders have been carried into effect, and again provide for the next six months.

Whilst a report from the Directors to the Executive was required once a year, a general review of the past year could be taken in the autumn without incurring the risk of being charged with intermeddling with the business of predecessors. Now, however, the constitution requires semi-annual reports, and, as one Board goes out on the thirty-first of March, and another comes in on the first of April, the Board going out not meeting after October give no account of the last half of their year, and if they did, their report would cover one-half of two fiscal years—the first half embracing a period over which they had no control, and about which, if they knew any thing, they could not be expected to understand the reasons which induced the transactions so as to make true and satisfactory explanations. To these objections to the present arrangement is added the danger of a collision of views between the outgoing and in-coming Board.

It seems that these difficulties might be obviated if the Legislature would make the official year of the Directors begin on the first of October, so that it would correspond with the fiscal year. Then by letting part of the Board go out every year, and a part hold over, a knowledge of all the transactions, and the reasons for them,

would be retained in the Board from year to year. Under such an arrangement the Board could be justly held to some responsibility for the whole period covered by their report.

Signed by order of the Board,

JOHN J. THOMPSON,
President.

STATEMENT A.

Amount necessary to complete Section and furnish the same ready for patients from October 1st, 1873.....	\$48,475 00
Amount necessary to complete Engine house, from October 1, 1873, and furnish the same ready for patients.....	12,500 00

REPORT OF SUPERINTENDENT.

WESTON, W. VA., Sept. 30, 1873.

To the President and Directors of the West Virginia Hospital for the Insane :

GENTLEMEN :

I herewith present to you the Tenth Annual Report of the West Virginia Hospital for the Insane :

There were in the Hospital, Oct. 1, 1872—

Males.....	156
Females.....	130
Total.....	286
Admitted during the year	33
Total.....	319

Discharged :

Cured.....	14
Improved.....	2
On bond	1
On trial.....	1
Died.....	16
Not insane.....	1
Total	35

Remaining in Hospital September 30, 1873 :

Males.....	151
Females	133
Total.....	284

Highest number in the Hospital during the first six months ending

March 31, 1873.....	286
Lowest number.....	277
Daily average.....	279 22-91

Second six months ending September 30, 1873 :

Highest number in Hospital.....	285
Lowest " "	277
Average " "	279 159-183
Yearly average.....	279 202-365

Cause of death :

Chronic exhaustion	2
Apoplexy.....	1
Marasmus.....	3
Uremia.....	1
Pyæmia	1
Epilepsy.....	1
Dysentery.....	1
Ossification of the heart.....	1
Chronic Diarrhœa	2
Softening of brain.....	1
Peritonitis	2
Total.....	16

The current expenses for the year have been as follows, as per vouchers filed :

To 31st March inclusive, first six months :

October	\$ 3,449 23
November	5,572 65
December	3,467 59
January	2,560 39
February.....	3,042 03
March.....	2,091 31
Total	\$20,203 20

To September 30, 1873:

April.....	3,479 36
May	2,674 70
June.....	2,467 33
July	3,115 09
August.....	2,997 82
September.....	3,355 48
Amount overpaid and due me, as per my last report.....	124 99
Total.....	18,174 77
Aggregate for the year.....	\$38,377 97

I have received from M. W. Harrison, Esq., Treasurer, as follows :

For the first six months ending March 31st, 1873:

October	\$ 3,248 83
November	6,000 00
December	3,000 00
January	4,000 00
February	3,000 00
Total.....	\$19,248 83

For the second six months ending September 30, 1873:

April	3,000 00
May	6,000 00
June.....	1,500 00
July	5,000 00
September	4,000 00
Total.....	19,500 00

Whole amount drawn from Treasurer..... \$38,748 83

Total amount expenditures..... 38,377 93

Balance on hand \$370 90

The *per capita*, per week, for the year, exclusive of the amount for repairs, is about \$2 59.

TRANSPORTATION FUND—DISBURSEMENTS.

First six months ending March 31st, 1873.	
October.....	\$ 52 70
November.....	16 10
December.....	33 20
January	216 55
February	31 20
March	79 00
Total	<u>\$418 75</u>
Second six months ending Sept. 30, 1873:	
April.....	41 38
May	284 46
June.....	419 54
July.....	84 80
August	12 00
September.....	201 03
Total.....	<u>\$1,043 21</u>
Whole amount expended during the year.....	<u>\$1,461 96</u>
Amount drawn from the Treasurer for Transportation Fund, for first six months ending March 31, 1873.....	
Cash on hand, as per my last report	\$000 00
Amount drawn for second six months ending September 30, 1873:	
September	900 00
Total	<u>\$ 1,557 93</u>
Amount expended.....	<u>1,461 96</u>
Amount on hand.....	<u>\$95 97</u>

THE DEFICIENCY APPROPRIATION FUND.

The Legislature, at its last session, appropriated \$1,200 to pay certain certified accounts given in 1871 and 1872 for transporting patients to the Hospital. By an order of your Board at its last meeting, I was directed to pay them, which has been done, with the exception of one claim, which I have been unable to hear from, although I have written frequently. The statement of this fund stands as follows:

Amount of appropriation	\$ 1,200 00
Amount paid out on certificates filed	820 21
Balance in my hands.....	<u>\$379 79</u>

Moneys received and turned over to the Treasurer, as per his report:

1872.				
Nov.	—	For Jas. McPherson, pay patient.....	\$ 50 00	
1873.				
Sept.	—	“ “ “	105 00	
1872.				
Nov. 14	—	For Ellenor Low, “	120 00	
1873.				
Jan.	—	For A. W. Hogg, “	84 50	
1872.				
Nov.	—	For A. L. Hearn, “	21 75	
1873.				
Aug.	—	“ “ “	135 35	
Oct.	—	For W. G. McPherson, “	36 00	
		For two horses sold by order of the Board.....	50 00	
		For one cane mill “	35 00	
		For one ox “ “	20 00	
		For calves, old iron, &c., “ “	15 00	
		Total.....	\$672 60	

STATE OF WEST VIRGINIA,

Lewis County, to wit:

I, THOMAS B. CAMDEN, do solemnly swear that the foregoing statement of receipts and disbursements of the West Virginia Hospital for the Insane, and every item thereof, is just and correct, to the best of my knowledge and belief.

T. B. CAMDEN,

Supt. W. Va. Hospital for Insane.

Subscribed and sworn to before me, this 4th day of October, 1873.

JAS. W. WOFFINDIN,

Notary Public.

OPERATIONS OF THE HOSPITAL DURING THE YEAR.

The inmates of the Hospital have been blessed with general bodily health. No epidemic, except a slight one of measles, has visited us. Fewer deaths have occurred this year than last. A few more have been discharged cured and improved. The daily average of patients is greater this than last year; and we have kept the Hospital filled to its utmost capacity, consistent with the health and well management of the patients.

We have still to report a large number of insane in the jails, who are slowly but surely becoming incurable for want of early treatment. From information received from the different counties, there are from eighty-five to ninety insane persons confined in the jails, exclusive of others, who are kept by their friends. To relieve

the jails, as far as possible, of this class of their unfortunate inmates, your Board at its last meeting caused to be erected

A BRICK BUILDING,

fifty by fifty feet, to be used temporarily for the insane, but ultimately destined to be used for an engine house. This building is approaching completion, and when finished will accommodate sixty patients. This will partially relieve the jails, and save the State a heavy expense annually.

But, if we are to judge the future history of insanity by the past, we can safely say, that by the time the next section of the Hospital is completed, if pushed with the utmost vigor, there will be in waiting enough insane in the jails of the State to fill it.

Our Hospital, up to the present time, has been filled almost exclusively with incurable insane, to the exclusion of curable cases. Those who were curable, were confined in the jails for lack of room here, until their insanity became chronic, and then slowly drifted into the Hospital as vacancies would occur, until it is almost filled with incurable cases. But now, by the erection of the brick building before mentioned, and the prospective completion of the next section, we may hope for a brighter future in the care and cure of the insane; and I cannot too strongly urge upon you the necessity of setting the fact before the Legislature, of the wisdom, economy and humanity of completing it, and of accepting this opportunity of converting an incurable into a curative Hospital. By so doing, the State will save annually many thousands of dollars, and be the means of restoring many unfortunates to their families, and good citizens to the State.

REPAIRS.

At your last meeting, your Board ordered certain repairs to the building, which have, in a great measure, been made. Other repairs are necessary, and will be pushed forward as soon as possible. The cost of these repairs I have paid out of the current expense fund, as mentioned heretofore in this report.

THE TEN-PIN ALLEY.

Your resident Directors kindly gave me leave to erect a ten-pin alley for the amusement and exercise of the patients. This is completed, and will be of great benefit to our inmates. Most of the work was done by patients and attendants.

THE NEW COAL BANK.

After trying various places on the farm for coal, we have at last succeeded in getting a good vein just above the reservoir, three hundred yards from the engine house. We have laid an inclined railway to the bank, and are enabled to run the coal directly into the engine house. The loaded car coming down draws the empty one up to the bank, and, by our own contrivance, the car unloads itself in the engine house. This improvement will save to the State near \$80 per month. We get rid of a teamster, three horses and a wagon, besides the wear and tear of the same. This bank was opened by our patients and employees; the grading for the track, laying down the railway, and cutting the timber necessary, was done by our own force. We have also within the year completed another railway, three hundred yards long, running from the kitchen to the hog lot, for the purpose of conveying the offal to the hogs.

THE GARDEN,

under the management of Mr. Woodell, has produced well. We have raised nearly four hundred bushels of tomatoes, besides corn, beans, potatoes, and other vegetables. We have in three acres of turnips, which will produce nearly six hundred bushels. We have organized a working force this summer, and hope to increase the number next year; and if we can get a portion of the farm opened and fenced, we shall be able to raise nearly all the vegetables we shall need. I respectfully urge upon you the necessity of opening and fencing the farm, so as to enable us to work our patients. It will surely be a good investment.

CONTRIBUTIONS.

It gives me much pleasure to acknowledge the following donations during the year:

Ladies' Repository.

The Democrat—Weston.

Sun—Clarksburg.

Journal—Point Pleasant.

Journal—Kingwood.

Herald—Kingwood.

Christian Advocate—Cincinnati.

Christian Advocate—Pittsburg.

Telegraph—Clarksburg.

Religious Telescope—Dayton.

Daily and Weekly Courier—Charleston.

Daily Register—Wheeling.

Journal—Charleston.

Reporter—Moundsville.

Independent—Martinsburg.

To *L. D. Camden*, for *Piedmont Independent*.

To *Hon. H. G. Davis*, for Public Documents.

To *Hon. A. J. Boreman*, for Public Documents.

To the *Weston Cornet Band* for Music.

To the *Lewis County Agricultural Society* for tickets during the fair.

To the *Commissioner of Patents* for Public Documents.

To the various Bands of the State, comprising the *West Virginia Brass Band Union*, for Music, and a Concert during their stay in Weston.

To the *Weston Musical Club* for their many favors in giving Concerts during the year.

To *Mr. John S. Pierson*, of New York, for a handsome Library, Papers and Pictures, donated for the use of the patients. This is his second gift to the Institution.

To the *Rev. Bosshard*, for his lecture on "What Shall I do?"

To *Mrs. Parker*, of Jane Lew, for Pot Plants for the halls.

To *Miss Jeanie Patterson*, for a Reading to the Patients.

To *Edward Payson Weston*, for a Lecture on "What I Know About Walking."

TO THE MINISTERS OF THE GOSPEL,

who have so kindly given their services for Sunday "*Chapel*," we are under many obligations. Revs. Fisher, Young, McCartney, Woofter and others, have contributed.

TO THE OFFICERS OF THE INSTITUTION,

Dr. Kunst, Assistant, Mrs. Jackson, Matron, and Mrs. Moore, Assistant Matron, I desire to return my thanks for their invaluable aid in performing the heavy and responsible duties that daily and hourly crowd upon them.

To the many employees, both male and female, who contribute

their part to the well government of the hospital, I am not unmindful, and to them I return my grateful thanks.

Finally, gentlemen of the Board, permit me to tender to you my thanks for your uniform kindness and advice during the trials of the past year; and I feel that you will join me in invoking the blessings of heaven upon our hospital and upon its unfortunate inmates. May our hands be strengthened to do our duty upon entering upon the duties of the coming year.

Respectfully submitted.

Yours, &c.,

T. B. CAMDEN, M. D.,
Supt. W. Va. Hospital for Insane.

WESTON, WEST VA., Oct. 2d, 1873.

To the President of the Board of Directors West Va. Hospital Insane :

Your Committee, appointed to examine the Certified Accounts of 1871 and 1872, paid by T. B. Camden, Superintendent, report that they find the accounts correct, as stated in his report, and that he has in his hands \$379 79, a balance from the appropriation.

Respectfully submitted.

E. VAWTER,
J. W. RAMSEY.

WESTON, WEST VA., Oct. 2d, 1873.

To the President of the Board of Directors :

Your Committee, appointed to examine the Transportation Receipts and Disbursements, as stated in Dr. T. B. Camden's Report, beg leave to report that they have examined the same, and find them correct.

Respectfully submitted.

E. VAWTER.
J. W. RAMSAY.

WESTON, WEST VA., Oct. 2d, 1873.

The undersigned, Committee appointed to examine the Accounts of the Superintendent of the "West Virginia Hospital for the Insane," at Weston, having carefully examined said accounts, beg leave to report that they have found them correct in every particular.

Respectfully submitted.

M. F. HULLIHEN, *Ch'n.*

A. MONROE.

M. W. HARRISON, *Treasurer.*

OFFICE OF THE BOARD OF DIRECTORS WEST VIRGINIA
HOSPITAL FOR THE INSANE,
Weston, W. Va., October 4, 1873.

At a meeting of the Board of Directors of the West Virginia Hospital for the Insane, held October 3, 1873, the following resolution was unanimously adopted, and the Superintendent ordered to incorporate it in his report:

Resolved, That the present Board of Directors of the West Virginia Hospital for the Insane desire to bear testimony to the ability of their distinguished President, Dr. John J. Thompson, of Putnam county. His eminent fitness for the position he has occupied, and his great zeal in the cause of the unfortunate insane, have rendered easy the numerous duties and responsibilities of the present Board of Directors. They further wish to express their appreciation of his uniform kindness and courtesy during the whole period of their official connection.
